Dear members,

Following the joint meeting of the Alliance that has very successfully taken place at Thessaloniki, I would like with this mail, on behalf of the EC and the Congress Organizing Committee to update you on where we stand till now, regarding the Congress preparation.

The aim, objectives as well as the main questions opened for the Congress so far, are all based on the results of a consultation process, including all members, as well as members of working groups and committees that started over a year ago, following the GA 2013 decision, taken.

Alliance Congress:

“Values and role of IVS in the current political, social, economic situation”

Aim & Objectives

The First Congress of the Alliance is meant to be an open space where members are invited to think critically about and reflect on the past, present and future of the Alliance. The main aim of the congress is a dialogue among member organizations, but also among individuals that contribute to the daily work of the organization. Having worked together for more than 30 years, having grown into a major player in the field of volunteering, it is time for us to take a moment to see how we got here, how we can sustain our work, and how we want to develop further.

Structure

The structure of the congress is built to give everyone a possibility to contribute their opinions to aspects related to cooperation, sustainability, evaluation, membership policy, visibility and advocacy. We will answer questions like: *How do we define cooperation in the Alliance? What do we keep from the past, what do we add, what do we leave behind? What is the membership policy, and is it adequate? How do we deal with non-active members? Should the network depend on public funds or should members take the full responsibility for its income? How can the Alliance make its work more visible and how can we*

advocate our values in a way that ensures our sustainability? What are the indicators for our work that we need to measure?

To put it briefly, participants will be moving from where the network is now to where they want it to be in 10 years' time, and will reflect on how we should get there.

[What the congress is not](#)

The Congress is not about making major decisions or about changing what we are or voting for Constitutional Changes – those are tasks that need longer than four days and only the GA body can decide on that. But we will answer essential questions, and these answers will provide a general strategic direction to the General Assemblies of the next years and to the Executive Committee.

[People involved](#)

In order to organize and run the congress in the most effective way, several people will be involved. For the first time in the Alliance we have the help of an experienced external facilitator Mr Radu Szekely. But as we are experts in cooperative projects several other people (a total number of 50 people) are involved in different roles: Course Director, trainers from the Alliance PoT,
